

MINUTES OF THE WASATCH-CITY COUNTY BOARD OF HEALTH

February 16, 1982

12:10 P.M.

Commission Room

Present were:	Calvin Giles	Vice-Chairman
	R. Raymond Green, M.D.	Medical Officer
	Elizabeth Murdock	Member
	Lorraine Allen	Member
	Phil Wright	Health Officer
	Maxine McAfee	Health Nurse
	Nelda Duke	Secretary
	Rulon Phillips	Wallsburg T.B. President
Excused:	Gilbert Olsen	Chairman
	NaDene Probst	Member
	Fay McGuire	Commissioner

Welcome: Mr. Giles welcomed those present and called the meeting to order.

Prayer: Mrs. Duke offered the opening prayer.

Minutes: Minutes of the meeting held February 4, 1982, were read by Mrs. Duke. Mrs. Allen made a motion minutes be approved. Mrs. Murdock seconded motion. Motion carried.

Provo Canyon. Mr. Phillips gave a brief review of the Provo Canyon
Sewer Dist: Sewer District Studies. He stated most of the monies have gone for engineers who have recommended septic tanks and drain fields which already exist in Wallsburg. The estimated cost of this system was one million six hundred thousand dollars and other proposals are far more expensive. Mr. Phillips stated that his cost is far out of reach of the Wallsburg population. He also stated there were pollution problems in the valley that could be corrected. It was the feeling of the board that we try to clean up pollution problems that now exist in Wallsburg and try to educate the people as to the problems that can arise from poorly installed sewage systems. Wallsburg has their own building inspector, Gary Kummer, and he will work closely with our sanitarian.

Ground Water Contamination: Mr. Wright submitted two studies that have been done in our county indicating that we do not have a good geological seal between the ground and underground water. We need to watch for high concentrations of homes on wells and septic tanks. After some discussion Mr. Giles made a motion that because of poor percolation we encourage builders not to use deep trenches but install shallow drainfields wherever possible. Mrs. Murdock seconded the motion. Motion carried. Dr. Green suggested we put a notice in the local paper regarding this problem.

- Local Health Dept. Reg: Mr. Wright reported he had met with the doctors at the local hospital regarding the Proposed Local Health Department Regulations and they feel they were too strict and unnecessary. The doctors sent a letter to Governor Matheson and Dr. Mason. The fourth draft of this regulation is now in progress.
- Inter-Local Agreements: It was mentioned that we still need signatures on some of our Inter-Local Agreements. Mr. Wright will follow up on this problem.
- Deer Creek Boat Camps: Mr. Wright stated the meeting on the Regulations of Boat Camp Operators on Deer Creek has been set for March 3rd at 7:00 P.M.
- Strawberry Septic Tank Removal: Mr. Wright reported the Bureau of Reclamation has contacted him regarding the removal of septic tanks around the Strawberry Area. It was suggested we require the Bureau to pump out tanks and fill them with sand. Dr. Green made a motion we invite representatives of the Bureau to discuss the removal of septic tanks in Strawberry. Mrs. Allen seconded motion. Motion carried.
- Timberlakes: Mr. Wright stated that we have received a complaint of outhouses in Timberlakes. They have asked for our help in removing them. Outhouses are not allowed in Wasatch County. We will have to handle their removal on a complaint basis.
- Charleston Water: Mr. Wright reported the Charleston Water Conservancy District is in the process of adding additional storage to their water system. It was suggested that no new hook ups be allowed until reservoir is complete and ample water is available.
- Temporary Food Est. Permits: Mr. Wright stated that most counties issue temporary food establishment permits for temporary serving of food. It was the feeling of the board that we adopt such an ordinance. Mr. Wright will begin work on this ordinance.
- Soaring Club: Mrs. Murdock stated that the Soaring Club of America is planning a convention in Heber sometime in July. It was suggested we contact Mr. Kelsey who is in charge of this event to avoid possible problems.
- TCMHC and Prevention Center: Dr. Green stated he had been asked to meet with Nancy Chartier from the Prevention Center on Friday. TCMHC has suggested to the state that we are duplicating our services between the TCMHC and the Prevention Center. We will study this problem further.

Hypertension
Clinics:

Mrs. McAfee stated we are planning some hypertension clinics within the county in the next few months.

Flu Shots:

Mrs. McAfee reported we had given 157 flu shots.

Colorectal
Kits:

Mrs. McAfee also stated she had colorectal kits for checking for rectal cancer.

Next Meeting:

The next meeting was scheduled for Monday, March 15th 12:00 P.M. in the Commission Room.

Meeting was adjourned at 1:50 P.M.

Vice-chairman
